Support for everyday life and the goals ahead.

Harmony
AGED CARE SUPPORT

Everyday Living

- **Domestic Assistance** – A little extra support with cleaning, laundry, meals and shopping to make everyday life easier.
- **Home Maintenance & Gardening** – Practical help to keep your home and garden safer, more comfortable and easier to enjoy.

Independence

- **Personal Care** – Respectful personal support that helps you maintain confidence, dignity and familiar daily routines at home.
- **Transport** – Friendly door-to-door transport support for appointments, shopping, family time and community activities.
- **Social Support** – Companionship and practical support to stay socially connected at home and in your community.
- **Dementia Care at Home** – Personalised support for people living with dementia, with guidance and reassurance for families and carers.
- **Case Management and Support** – Clear guidance, thoughtful coordination and ongoing support to help your care work well together.
- **Assistive Technology and Home Modifications** – Equipment and practical home changes that can make everyday activities safer, easier and more independent.
- **Transition Care** – Short-term, goal-focused support to help you recover and regain confidence after a hospital stay.

Clinical Support

- **Health & Wellbeing Care** – Professional care at home, planned around your health, wellbeing and independence goals.
- **Allied Health** – Physiotherapy and occupational therapy support designed to help you move, function and live well at home.
- **Health & Well Living Assessments** – A whole-person assessment that helps identify strengths, priorities and practical opportunities to live well.
- **Palliative Care** – Compassionate, personalised support focused on comfort, dignity and what matters most to you at home.
